Denoses and saver-

My name is Jean Newman, I live with my parents, my father's name is G. C. Kimbriel. I work at the Rheem Manufacturing Company.

I was standing right on this side of the Stemmons Freeway sign, about half-way between the sign and the edge of the building on the corner. intraway bottom in a sign and use soly of the both ining on the bottom. I was by myself, there were other popule around withing the motioned first motorcass and just passed me when I heard something that I thought was a fiverencedor at first, and the Freshent had just passed me, because after he had just passed, there was a loud report, It just seared me, and I noticed that the President jumped, he sort of dualed his head done and I thought at the time than it probably scared his, boo, just like I fall me, because he filmeds, I like he jumped. I saw that put his chows like this, with his hands on his chest.

By this time, the notorcade never did stop, and the President fell to his left and his wife jumped up on her knees, I believe it was, in the back of the car on her knees, I couldn't say that for sure. And I realized then it had been a shot. I looked in the car and she was on her knees, and he wasn't even visible in the car. I looked around then and everycody was running every which way. I don't know why I didn't run, I just stood there and backed up and looked around to see if I could see anything, but I saw no one whatever with anything that resembled a gun or anything of that kind.

I just heard two shots. When it happened, I was just looking at the Prosident and his wife, and when she jumped up in the car, I had my vision focused on her, and I didn't see anything else, about the others in the front of the car.

The first impression I had was that the shots came from my right.
